Campaign Spending: [List of Filers](#)

Hello! I am Mark Terry, candidate for Congress in the urban district. I ask you for your vote. We need to improve Congress and the national laws. I am very serious about doing a good job for you. So please elect me, Mark Terry.

My platform:

Repeal the Jones Act. By restricting shipping, the Jones Act increases our cost of living here in Hawaii

I am pro-life.

Rail transit will do little for traffic. We must consider other ways to improve traffic.

Secure our borders. Deport illegal aliens.

Win the war on terror. Bring the troops home at the proper time.

End wasteful government spending so taxes can be cut.

Replace the tax code with a fair tax (national sales tax) or flat tax.

I will stay in touch with Hawaii, and represent us rather than the lobbyists or special interests.

Work for the day we can truly say, "The era of big government is over."

My qualifications: in 2002, I won the Republican nomination for Congress in the urban district. For several years, I was chairman of a 17-member neighborhood board. I worked for the preservation of Haunama Bay and open space in the East Honolulu. I am a university graduate, self employed, and many years in the real estate field.

If you vote for me, Mark Terry, you send a message. We want something better than what we have in Congress. Please vote for me, Mark Terry.
